2.	2. Legislative Yuan members are attempting to force the Central Government to adopt a clear-cut policy of alignment with the Western powers and opposition to the Soviets. Yuan members are aware that the government is reluctant to take any action which would finally alienate the Soviets; they believe that part of the apparent United States reluctance to furnish further aid comes from a realization of the compromise position of the Chinese.					
3. Vice Foreign Minister George YEH told an unidentified group of Legislative Yuan members that he is "tired of doing Americans" dirty work in China for them. " Comment. YEH probably is the leader of the compromise clique in the Ministry of Foreign Affairs, to which the Foreign Minister also adheres.)
